SBCC,

I would also like to register my objection to the removal by, state amendment to the 2009 UPC, the following portion of section 908.2.1 which states "The water closet fixture drain or trap arm connection to the wet vent shall be downstream of any fixture drain or trap arm connections."

I would also like to register my disapproval of Dave Cantrel's efforts to remove from Section 404.3 the requirement for water to be roughed in at waterless urinals.
